

Single «Move on for Real» by Wolkenpark

Release Date: 06 June 2022

«Move on for Real» was recorded in spring 2021 while Corona had destroyed all live gigs. These were live recordings at Klangfaktor Recording Studio, two to four takes for each track which built the base of the full album (to be released in September 2022).

The track was originally composed by Jean-Pierre Schaller as instrumental. Later Julio Mwansa Nkowane, better known as Rootwords, wrote deep lyrics to the heavy drum'n'bass beat, which culminates in a big brass orchestra arranged by Julien Boss and Christoph Flueler.

Production

The whole production was recorded and mixed by Kriz Flueler at his home studio «Klangfaktor». After years of working «in the box» (completely digital) he returned for this recording to his roots and mixed analog on finest vintage equipment like a Studer 963 desk, Urei, Amek, Quantec outboard or real tape delays. Overdubs were made by Julien Boss on Yamaha CP-70, Hohner D-6, Roland Juno 60 and other synthesizers. The reverb of the voice track comes out of an original EMT 245. For more details about the equipment and the mixing process check his website <http://www.klangfaktor.ch> and/or contact him directly.

Labelcopy

Title Move on for Real

Artist Wolkenpark

Musicians / Production

Christoph «Kriz Flew» Flueler (tp, loops, effects)

Julien Boss (rhodes, synthesizer, effects)

Jean-Pierre Schaller (eb, effects)
